

➤ Radon gas is invisible, odourless and tasteless can enter a home any place it finds an opening where the house contacts the soil.

➤ Radon gas is the leading cause of lung cancer after smoking and is responsible for 16% for all deaths caused by lung cancer.

THE ONLY WAY TO KNOW IF YOUR HOME HAS AN ELEVATED LEVEL OF RADON IS TO TEST.

PROTECTING YOUR HEALTH IS AS EASY AS...

1. TEST.

2. SEND.

3. TAKE ACTION.
