

# TAKE ACTION ON RADON

BREATHE  
the lung association

Radon gas is invisible, odourless and tasteless and enters your home through any opening where the house contacts the soil.

Radon gas is the leading cause of lung cancer after smoking and is responsible for 16% for all deaths caused by lung cancer.

## PROTECTING YOUR HEALTH IS AS EASY AS...

1. TEST.

2. SEND.

3. TAKE ACTION.
