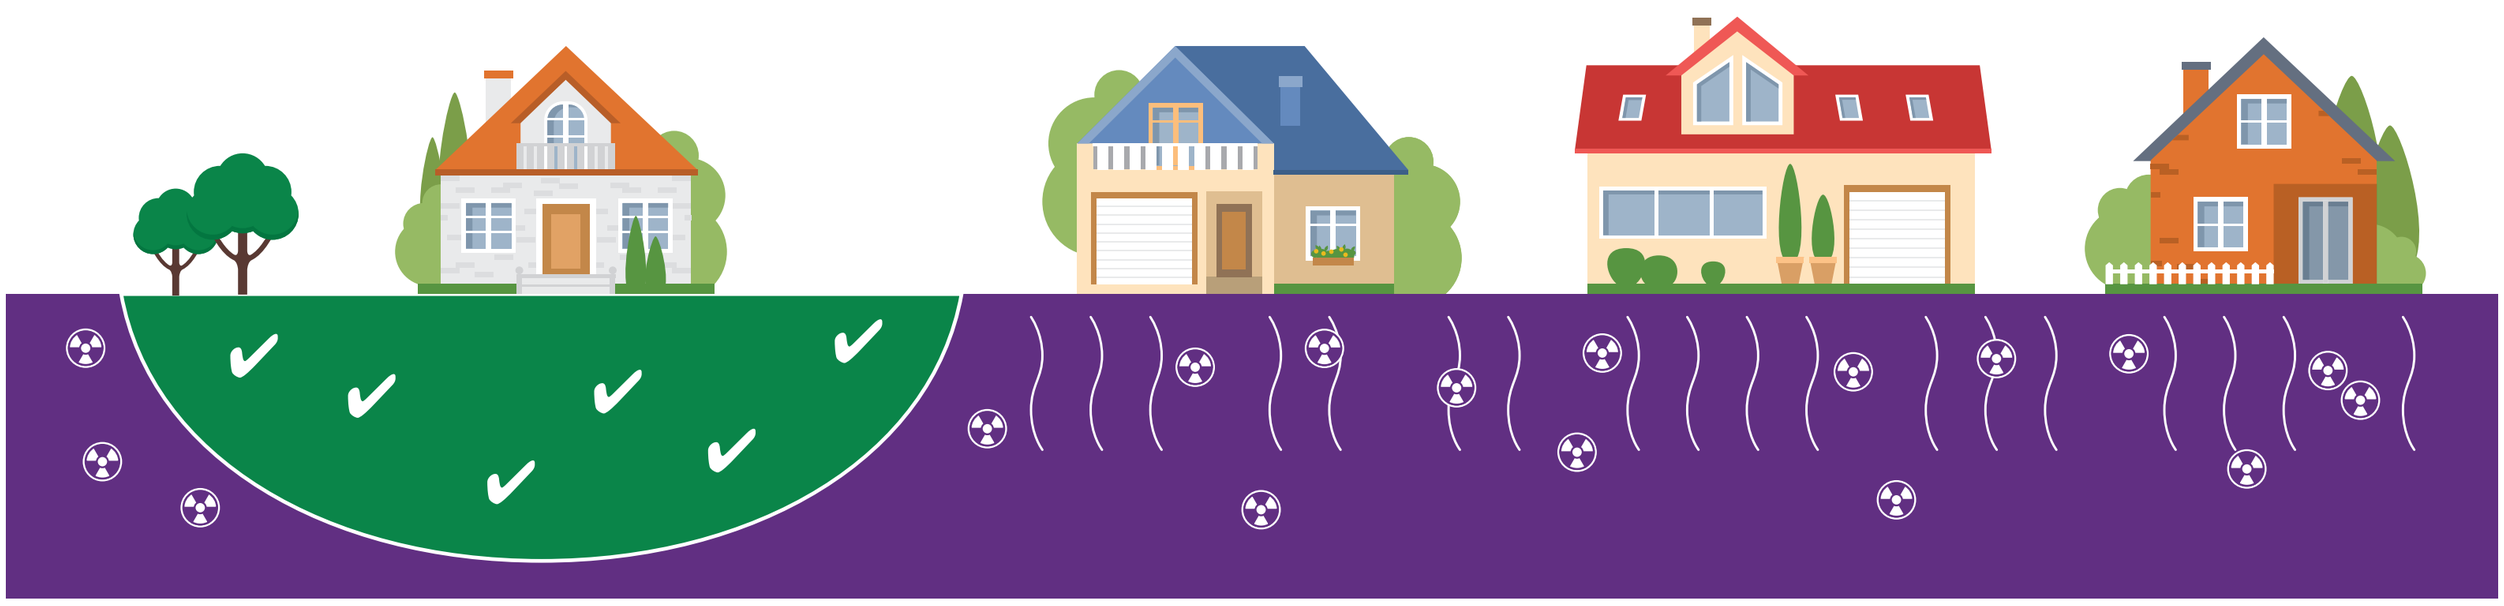
Make sure your home is healthy, test your home for radon today!

• Radon concentrations are higher in homes and exposure to radon at home contributes to 90% of Canadians' radon-induced lung-cancer risk.
• COVID-19 public health measures mean we are all spending more time at home.
Now, more than ever, it is important to test and reduce your radon exposure.



Purchase a long-term radon test kit at: takeactiononradon.ca
