

# Take Action on Radon Radon Reduction Sweepstakes 2019-2020

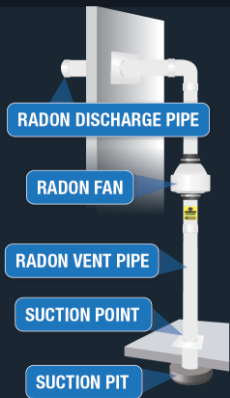

## About the Sweepstakes

The contest provides 10 prizes of up to **\$1,000** each to homeowners who have tested their home for radon and used a C-NRPP professional to reduce levels to below Canada's recommended guideline of 200 Bq/m<sup>3</sup>.

The sweepstakes encourages Canadians to take action on radon, with the possibility of a cash reward.

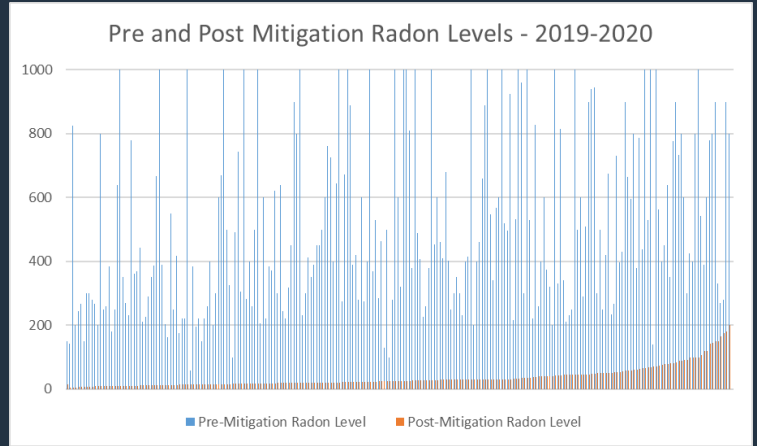

256 Entries Across Canada

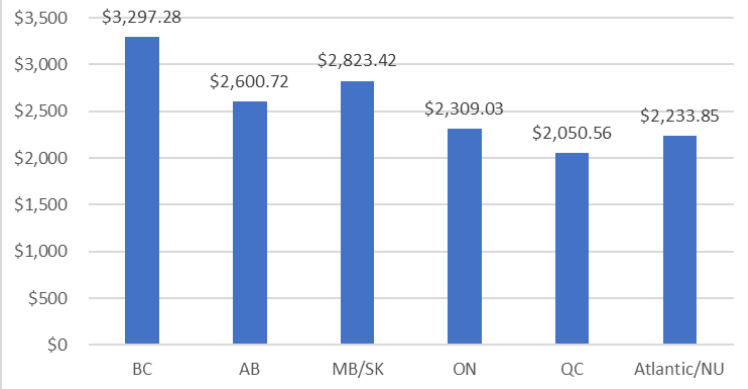

### Radon Reduction System

## Radon Levels **BEFORE** & **AFTER** Mitigation

C-NRPP professionals reduced radon levels to below 100 Bq/m<sup>3</sup> over 94% of the time, and to below 50 Bq/m<sup>3</sup> 80% of the time.

## Average Cost of Mitigation System per Region

Elevated radon levels are linked to **3,000** lung cancer deaths in Canada per year.

Reducing indoor radon levels is the only way to reduced radon-induced lung cancer risk.

Take Action on Radon is a national initiative to bring together radon stakeholders and raise awareness on radon across Canada.
