

Mailing your radon test kit to the lab:

You must return the radon test kit to the laboratory that it originated from so that the laboratory can properly read the device and provide you with accurate results.

If you have participated in the **100 Radon Test Kit Challenge** this is the address and information that you will need to return your detectors. If you received a duplicate or are returning together with others you will have to edit numbers to match the number of detectors returned.

Ship to: Radonova

Attn: Radon Laboratory
 900 Oakmont Lane, Suite 207
 Westmont, IL 60559
 USA
 Ph: 800.528.8327 Email: customerservice@radonova.com

When you purchase postage from Canada Post you will be asked to complete a customs form. Here is the information for the fields that need to be filled in.

TAKE ACTION ON RADON

Tips:

- Please make sure that the lab receives the devices within 30 days of their end date.
- One tip for shipping: Pack as tight as you can as you do not want to pay for shipping air.
- You will need to create a customs declaration. Please use the information below. To avoid any delay at US customs, keep the shipping value at \$750 or less as the units were purchased within Canada (keep in mind that you are not selling anything to the US).
- Radonova will send a reports via email within a few weeks after receiving your devices.
