

Mailing your radon test kit to the lab:

You must return the radon test kit to the laboratory that it originated from so that the laboratory can properly read the device and provide you with accurate results.

If you have participated in the **100 Radon Test Kit Challenge** and received your detector from November 2018 to March 2019 through the following communities (see list below). This is the address and information that you will need to return your detectors. If you received a duplicate or are returning together with others you will have to edit numbers to match the number of detectors returned.

Ship to: AccuStar Labs

2 Saber Way
 Ward Hill, MA, 01835 USA
 1-888-480-8812
radonlab@accustarlabs.com

100 Radon Test Kit 2018/2019 Communities:

- Wabana, NL
- Moncton, NB
- Baden, ON (Wilmot Township)
- Port Colbourne, ON
- Souris, MB
- Winnipeg, MB
- Salmon Arm, BC
- Spruce Grove, AB
- Golden, BC

Tips:

- Please make sure that the lab receives the devices within 30 days of their end date.
- One tip for shipping: Pack as tight as you can as you do not want to pay for shipping air.
- You will need to create a customs declaration. Please use the information below. To avoid any delay at US customs, keep the shipping value at \$750 or less as the units were purchased within Canada (keep in mind that you are not selling anything to the US).
- AccuStar typically sends the reports via email within a few weeks after receiving your devices.
-
